PROFESSIONAL SUMMARY

Final-year Computer Science student at MDU with hands-on MERN stack experience across full-stack projects. Comfortable with the full request lifecycle — React UI to Express API to MongoDB with a focus on auth, data integrity, and clean API design. Seeking a Web Development Internship, available to start immediately, looking to ship real features and grow alongside experienced engineers.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST API design, JWT Authentication

Database: MongoDB, PostgreSQL, Mongoose (schema design, validation, CRUD)

Tools: Git, GitHub, VS Code, Postman, Multer

PROJECTS

NextGoal | React.js · Node.js · Express.js · MongoDB · JWT · Tailwind CSS

[Live Demo](#) · [GitHub](#)

- Built a full-stack goal tracking app with JWT authentication, protected routes, and a dashboard displaying live stats cards for total, active, and completed goals across full CRUD operations.
- Engineered a goal recommendation engine that scores each goal and surfaces the most achievable next target, with 3-state status tracking (Active / Done / Skipped) persisted via MongoDB and served through a RESTful Express.js API.
- Deployed frontend on Vercel and backend on Render, with MongoDB Atlas for cloud-hosted data persistence; managed environment variables for DB URI and JWT secret across both environments.

InternTrack | React.js · Node.js · Express.js · PostgreSQL · JWT · Tailwind CSS

[Live Demo](#) · [GitHub](#)

- Built a full-stack internship tracking app with JWT authentication, protected routes, 4-stage status tracking (Applied / Interview / Offer / Rejected) across 8 RESTful API endpoints.
- Designed a relational PostgreSQL schema with structured error handling for specific failure cases, ensuring data integrity across all CRUD operations.
- Deployed frontend on Vercel and backend on Render, connected to a Neon-hosted PostgreSQL database; secured API keys and database credentials via environment variables across both deployment environments.

WORK EXPERIENCE

Internware — Web Development Intern

July 2024 – Sep 2024

- Gained hands-on exposure to React.js and Tailwind CSS by assisting with UI component updates and observing production development workflows.
- Supported logistics and registration coordination for team-organized developer events.

EDUCATION

Maharshi Dayanand University, Rohtak

2023 – Present

B.Tech, Computer Science · CGPA: 8.0 · Expected Graduation: May 2027

Deep Public School, Vasant Kunj, New Delhi

2010 – 2023

Class X & XII · Class X: 93% · Class XII: 92.3%

CERTIFICATIONS

DataDrix — MERN Stack Training

July – Sep 2025

Intensive full-stack development program covering MongoDB, Express.js, React, and Node.js with hands-on project work.
